HELICOPTER

THIS YEARS ELECTRIC WILL BE OVER THE TOP WITH RAFFLES FOR 4 COMPLETE AIRCRAFT. EVEN IF YOU DO NOT PLAN ON FLYING, COME AND SEE THE SPECTACULAR ELECTRIC AIRCRAFT NOW AVAILABLE TO ALL OF US.

FOR THOSE OF YOU WHO DO NOT HAVE AN ELECTRIC TO FLY AND DO NOT ATTEND BOTH DAYS, YOU CAN ATTEND AND FLY AT THE URI BALLOON FESTIVAL. IF YOU PLAN ON GOING, USE THE PASSES BELOW FOR ENTRY.

July 22 & 23 URI Balloon Festival

The South County Radio Control Club invites you to attend, exhibit or fly at the 28th Annual URI Balloon Festival.

All are welcome; bring big or small, aerobatic or sport planes, or helicopters. One of the main highlights and draw of the Festival are the numerous RC aircraft flown and displayed for the enjoyment of the thousands of spectators that attend.

The grass-flying site is roped off from the spectator area and is large enough to accommodate all sizes of RC aircraft. RC Pilots will be admitted free with either an airplane, helicopter, AMA card or SCRCC card. (35 minutes South of Providence, take Rt. 95S to Rt. 4S and make a right at Rt. 138, follow this to the Plains Road entrance to the University of Rhode Island Campus.

RC Flying is from 9am to 4pm each day.

What else goes on at the Festival?

Hot air balloon rides, early evenings,
Classic Car Show
Food Concessions
Craft Exhibits

Live Blue Grass Music
Ultralite Demo Flights
Military Heli Exhibit
Kite Flying Show

For Information contact Andy Argenio 401-231-5380 or Email imaasanction@aol.com

Minutes of June 20, 2006 Meeting

The June 20, 2006 meeting of the RC Propbusters was called to order at 8:00 PM with 17 members present. The minutes of the May meeting were read by Bernie Liskov and accepted as read. The treasurer's monthly report was read by Ron Czikowsky and is as follows. The beginning balance was \$10,193.55, total income was \$1982.60, total expenses were \$4,159.88 and the ending balance was \$8016.27. The report was accepted as read.

Old Business:

The road was recently graded and 3 loads of processed gravel was laid down. Pasqualini Construction did the work and the cost was under \$2,000.00.

The Beringer was affected by bad weather. On Saturday, it rained with high winds. Sunday had high winds but about a dozen people showed up. Fred Meyer suggested that we move the date to July where we might get better attendance.

A float Fly demonstration was held at Odeta Campground. The flyers were Dick Wilkins, Fred Meyer, Jack Holmgren, Bob Haines, Tom Vernon, Bob Trinque, and Dominick Tranchida. The report was that they put on a great show and Dick said that it was the best float fly in his memory. The Odeta people were so happy that they donated \$200.00 to the club. Also one of the kids in attendance actually asked Jack for his autograph.

The balloon flying at the Mohegan Sun basketball games is going quite well.

The proposal by the CATO rocket people was read. A discussion was held on the proposal of entering into a field sharing agreement with them. Most argued that we are a R/C aviation club and that any sharing agreement might jeopardize our future. A motion was made and seconded to enter into an agreement with the CATO people. That motion did not pass. The sentiment among those present was that we allow them to use the field in the future under the same conditions as in the past. That would be that they come to us to ask if they could have an event and we would discuss it at a meeting and vote on each request.

Reports:

There was no information on the Helicopter fly in. Ray suggested that we have a combat demonstration during the neighborhood fun fly but safety concerns about out of control planes nixed that. Dennis said that last years program was so successful that we should do the same stuff this year but perhaps have more trainers available due to attrition during the day. Al Losacano offered the use of an elaborate public address system for the Neighborhood and the upcoming AMA event on September 22-24. For the Henry Struck Memorial electric Event H & H Hobbies has donated a Park Zone Flyer with 2 battery packs, charger and a radio for a money making raffle. There are now 4 planes to raffle or give away.

New Business:

Bernie suggested that we start looking for a new mower to replace the Toro. Jack countered that that mower was doing fine but that the Huskavarna was near the end of it's useful life. Fred did say that another weed whacker was needed. Ron Czikowsky will donate his old one to the club.

MODEL OF THE MONTH

George Young brought in an electric ARF glider by Gull Electric. It has a folding prop, a polyhedral wing and came with no instructions. No pictures available.

The meeting was adjourned at 9:10 PM.

Respectively submitted by Bernie Liskov.
